I'm Sorry - Letter of support from private citizen

In the words of South African singer "I'm sorry for what my people have done to you"

I can not begin to explain how ashamed I am of my white community for their unlawful, hatred actions towards the First Nations in Canada, and in Burnt Church.

I am an adjudication officer with the PSAC, and I cannot believe that the Government Officers so willing take part in the illegal actions of government.

I teach ocean kayaking in the Victoria BC area, and ever one I talk to wishes we could be there and get in the way of the government boats. We have won some cases here - i.e. power boats must yield under Canadian Law to no power boats.]

I am rambling, but let me say I fully, and unconditionally support the First Nations in their actions to obtain that which belongs to them.

In Solidarity
